

# Emmanuel International Response to COVID-19

Emmanuel International is reaching out to those in need in our project countries during the COVID-19 pandemic.

Some of the overriding needs at the moment are **food** and **education** on how to reduce the risk of COVID-19.

With little or no social assistance for those who have lost their income, **food** is an urgent need.

For those communities in isolated rural areas with little information available to them, **education** and **hygiene supplies** are crucial.

We are working to help the churches meet these needs. Tanzania is focusing on giving education about COVID-19. Food is being distributed in Brazil, Philippines, South Africa and Uganda.

More will be needed as this situation unfolds.

## How you can help...

We are raising funds to help  
EI's COVID-19 outreach.

Find out more,  
including how to donate, on our website on
